Objective

Motivated and detail-oriented Junior Developer with a solid foundation in computer applications and programming principles, eager to contribute to innovative projects in a dynamic tech environment. Committed to continuous learning, I bring strong problem-solving skills, a passion for coding, and a collaborative spirit, aiming to grow alongside experienced professionals while advancing my technical expertise.

Education

University of Kashmir
Master of Computer Applications (MCA)
2024

University of Kashmir
Bachelor of Computer Applications (BCA)
2021

Skills

Programming Languages:	Python, Go Lang, C, C++, Java
Web technologies:	Fast API, DRF, HTML5, CSS3, JavaScript
Data Interchange:	JSON, BSON, Yaml
Tools and Technologies:	Git, GitHub, Docker, Kafka, MongoDB, MySQL, PostgreSQL, AI, ML, Postman, VS Code, Google Collab, MS Word, MS PowerPoint, MS Excel
Design patterns:	SOLID

Internship Experience

Backend Development Intern | Jamia Millia Islamia, New Delhi

- Contributed to the backend of a mobile-based attendance management system used by faculty for classroom attendance tracking.
- Implemented route authentication and developed an email OTP-based login system to enhance security.
- Worked with FastAPI, PostgreSQL, and Docker to build scalable backend services.
- Collaborated with the frontend team (Flutter) to ensure smooth integration of backend APIs.
- Supported features including SMS notifications to students and PDF attendance report generation.

Projects

AI Agent-Based Deep Research System

- Designed a dual-agent system using LangGraph and LangChain, powered by Together.ai LLMs.
- Automates deep research via autonomous web crawling (Tavily API) and natural language summarization.
- Implemented an interactive Streamlit web app for query submission and real-time answer generation.
- Modular codebase with clean orchestration, supporting dynamic query → research → answer pipelines.
- Live Demo

AI Agent-Based Doctor Appointment Scheduling system.

- Developed an AI-powered appointment scheduling system to streamline patient management in healthcare settings.
- Automated scheduling workflows, reducing manual administrative tasks and improving efficiency.
- Implemented the solution with Python, LangChain, and Streamlit to ensure scalability and performance.
- Designed a modular agent architecture for flexible integration of future healthcare automation features.
- Prepared support for automated email/SMS notifications to enhance patient communication and engagement.
- Live Demo

Video Subtitle Generator

- Built a Video Subtitle Generator web app to automate subtitle creation.
- Extracted audio from uploaded videos and generated transcripts using OpenAI Whisper.
- Overlayed subtitles on videos with MoviePy, supporting both soft (.srt) and hardcoded outputs.
- Developed the application with Streamlit for an interactive and user-friendly interface.
- Live Demo

Python-based Crypto Analysis and Reporting System

- Automated real-time crypto data collection and analysis from public APIs (CoinGecko).
- Generated Excel-based reports, implemented async processing and modular Python scripts.
- Version controlled with Git for collaborative development and history tracking.

Go-Lang-based Backend Server for a Recruitment Management System

- User profile creation, resume upload & parsing, application processing.
- Integrated MongoDB and third-party resume parsing API.
- Implemented secure authentication and followed software engineering best practices.

Academic Performance Prediction

- Built predictive ML model using boosting ensembles to forecast student dropout rates.
- Analyzed academic and socio-economic factors affecting student performance.

Interests and Hobbies

- **DIY enthusiast:** Creating and building projects from scratch.
- **Technology explorer:** Eager to learn about and experiment with new technologies.
- **Electrical and electronics enthusiast:** Building and working with electrical and electronic components.
- **Mechanical tinkerer:** Enjoying working with and understanding mechanical objects.

Languages

- English
- Urdu
- Hindi
- Kashmiri
